

14th Amendment to the Hurricane Katrina Administrative & Emergency Order

Attention to contractors/landfills/people working with Hurricane Katrina demolitions, including Asbestos Training Providers, etc:

The **14th amendment to the Hurricane Katrina Administrative & Emergency Order**, signed 6/29/2009 (effective for 90 days), has been downgraded to **St. Bernard Parish only**. (see attached)

In addition, the Order for St. Bernard Parish only **no longer** contains:

- 1- a waiver for 2-hr Louisiana regulations;
- 2- a waiver for 5 day notice prior to class commencement;
- 3- an extension of 3 months to inspect, or 6 months to submit asbestos Management Plans for a school or state bldg;
- 4- a waiver to receive a Project Designer accreditation with education and/or experience; and
- 5- a waiver to process Emergency accreditation of Workers for a normal fee of \$66.

Orleans Parish, Jefferson Parish, and Slidell demolitions must comply with LAC 33:III.Chapter 51 (LESHAP) and LAC 33:III.Chapter 27 (accreditations, training, and state and schools rule). To reiterate, the **14th** amendment to the Hurricane Katrina Administrative & Emergency Order **does not apply to Orleans Parish**.

This means that in parishes other than St. Bernard, the ADVF One Protocol is no longer in effect; and emergency ADVFs are now \$99.

However, in order to expedite hurricane related demolitions still being conducted in the Orleans Parish, and Jefferson Parish and Slidell (if necessary), the LDEQ will continue to allow emergency fax notifications - with payment of the ADVFs upon picking up the manifests.

Also, as indicated above, Asbestos Training Providers must comply with LAC 33:III.Chapter 27. There are no more waivers for training.

Please contact Jodi Miller at Jodi.Miller@la.gov if you have any questions.
